**Subject: REVIEW OF PURPOSE DEVELOPMENT**

---

We have reviewed your development plan and the restrictive covenant of Cerros Peninsula in Corozal District. We are in agreement of the propose development and standards, being that it is meeting most of our requirements and gladly support you all.

We request:

- That we have a walk through the site to discuss possible open source access to adequately accommodate the fire trucks in our department.
- A complete building plan to be submitted to us before commencement of construction.
- For us to be allowed to do an inspection as development of the site from beginning until finish.
- And finally to be open to any necessary adjustment we need to make as work progresses.

All this is to assist us in the case of any fires or disaster that can occur in this area or neighboring areas.

We wish you all the best, hoping that everything stated on the restrictive covenants will be met and that we keep on working together to accomplish your endeavors.

Sincerely

---

Newton Lennon (Mr.)  
Fire Inspector  
Corozal Fire Department

---

Wayne Armstrong (Mr.)  
Sub-Station Officer  
Corozal Fire Department

**Cc: Fire Chief**
